VOLUME 8 NUMBER 3

MARCH 1977

PRESIDENT.....WALTER WALKER  
VICE PRESIDENT...BILL B. BAILEY  
SECRETARY.....GEORGE R. MOLT

TREASURER.....C.R. BYRD  
DIRECTOR NRHS/...C. E. NULL  
NEWS EDITOR.....W.A. (BILL) MERCK

Your editor had some very good reports on our February meeting. Sorry had to miss that one. The youngest grandson in Memphis had a birthday and granddad had to be there. Looking forward to seeing all of you in March.

The March meeting will be held on Sunday the 13th starting at 2 PM at the Missouri Pacific Office Building, 1000 West 4th St. in North Little Rock. One of our new members, Mr. Harry Greenley will be in charge of the program and has a real treat in store for us. Harry will present Mr. Bruce Gurner of Water Valley, Miss., the author of the book, "Casey Jones And The Wreck At Vaughn". Mr. Gurner is a former Ill. Central engineer and is an authority on details of the wreck that made Casey famous. Trust our attendance will continue to hold up. Be sure and try to bring a visitor. Remember----a visitor is a prospective new member.

Our Vice President and Membership Chairman, Bill Bailey, has obtained lobby space in the Worthen Bank & Trust Company in Little Rock for our club to display railroad antiques and artifacts during the month of November, this year. This bank is, as you know, located at West Capitol and Louisiana Streets and extending to Center Street and is in the heart of downtown Little Rock. It is an ideal location for our showing. Congratulations Bill, this is something for us to look forward to.

During week of February 7th, Cotton Belt handled into North Little Rock a business car special consisting of Diesel SP 4450 containing steam generator, SP 99, Business Car with AMTRAK colors, SP 291, streamlined Diner-Lounge and SSW 151, Business Car SAN JOSE. Train stayed the entire week in North Little Rock and was spotted on Arkansas Avenue by the Cotton Belt office building. A very pretty train.

Some advance notice on our April and May meeting in that they will be held on the THIRD SUNDAY of these months instead of the regular second Sundays. The second Sunday of April is Easter and the second Sunday of May is Mother's Day. Our dates for meetings will be April 17th and May 15th. We thought a change might be in order as these are two special days that our membership might not want to come out for a meeting. We will run this again in the April news bulletin.

With news coming in thick and fast on 1977 steam excursions, Page 2 of the newsletter will mostly be taken up with some timely information received on them which am sure you will be interested in. So, look on Page 2.

A REMINDER----PLEASE PAY DUES NOW TO DICK BYRD. YOUR DUES KEEP OUR CLUB GOING.

STEAM

EXCURSIONS

We have previously given you some news on steam excursion out of Memphis this year. In SOUTHERN STEAM SCHEDULE, 1st Edition, 1977, received few days ago from MR. JAMES A. BISTLINE of SOUTHERN RAILWAY, the Memphis trip is scheduled for May 7th and 8th, round trip each day to Corinth, Miss. with Engine 4501. Fares and schedule not yet received but should be forthcoming soon from the Sentimental Journey Committee of Memphis, the sponsor of the trip. Come on guys and gals--lets get up a good crowd for this one, its close to home.

HEART OF DIXIE RAILWAY CLUB AND SOUTHERN RAILWAY; information received from Mr. Bill Hudson of Birmingham, Alabama about a big one; Sixteen car train from Birmingham to Chattanooga with power on the Macky end, READ IT CLOSELY former S.P. and AT&T Engine GS-4 No. 4449, Saturday, April 2 and Sunday, April 3rd. NRHS News Extra advises the April 2nd trip was sold out in 3 days, so forget about that one. This trip will enable you to eat in the Dome Room of the famous CHOO-CHOO Restaurant in Chattanooga, see one of the worlds largest model railroad exhibits and ride a genuine New Orleans trolley car. Price of tickets are Adults-\$18.00 and Children under 12-\$16.50. Tickets by mail available from Mr. Jim Gibson, 417 N. 20th St., Bessemer, Alabama, 35020.

From NRHS News Extra: WESTWARD-HO THE 4449. Space will not permit giving you all the details on this one and the schedule is only tentative and no fares have as yet been quoted. In a nut-shell this is it--Train will be operated as a double excursion by SOUTHERN Ry. and AMTRAK. Southern will operate it from Birmingham to Meridian, Miss. and Amtrak will take over at that point and operate it all the rest of the way to Portland, Oregon. It will route via Southern Birmingham to Meridian, ICG Meridian to New Orleans (via Jackson, Miss.) and thence over S.P. New Orleans to Portland. What a trip this will be. Tentative date for departure is Wednesday, April 13th with several layovers enroute, arriving Portland Sunday, May 1st. All NRHS members should receive flyer on the trip direct from Amtrak in the coming weeks. Flyer should announce equipment to be used and other details.

Saturday, April 23 and Sunday, April 24--RAIL TO ROCKETS. Chattanooga to Huntsville, Alabama and return with Ex-SOUTHERN No. 4501. This one by Southern Ry. and Tennessee Valley Railroad Museum.

Reported previously that Southern had obtained Ex-TP No. 610. Trinity Valley Railroad Club, Inc. Fort Worth, Texas report this engine will leave Ft. Worth on March 2nd with a Southern sleeper, coach, tool car and auxiliary water car. Trip to Birmingham will take four days and train will operate to Shreveport via MP first day. Second day-Shreveport to Vicksburg via ICG. Third day-Vicksburg to Meridian via ICG, Fourth day-Meridian to Birmingham via Southern. The run from Meridian to Birmingham will be a fan trip with tickets available. No further details are available at this time. The Trinity Valley Club will operate an excursion of their own on Sunday March 20th from Ft. Worth to Temple and return. This will be a 260 mile round trip and they will use Amtrak's Lone Star and Inter-American. Fares \$14.50 Adults, \$7.50 Ages 2-12.

\*\*\*\*\*

The second part of Gene Hill's excellent article, "An Arkansas Railroad Defeats A President", will be run in the April newsletter.

\*\*\*\*\*

The ARKANSAS RAILROAD CLUB is a non-profit organization. Meetings held second Sunday of each month in the MOP Office Bldg. North Little Rock. Visitors always welcome. For information address P.O. Box 5584, Little Rock, 72215 or to the Editor at 5007 Hawthorne Rd. Little Rock, Ark. 72207. (More News on Page 3).

After being absent from Arkansas since January 19th, Amtrak restored the Inter-American thru the state effective February 22nd with the first train being the southbound train, No. 21. It has been running anywhere from one hour to two hours late since being restored account MOP limiting the SDPHOF's to 40 miles per hour on curves. The MOP main line between St. Louis and Peplar Bluff as you know, has many curves. After a series of wrecks and derailments several other roads have limited these engines to restricted speed; in fact BN has banned them altogether. Looks like Amtrak has a lemon on their hands and it is your editor's opinion that they will all wind up being sold to the railroads to be used in slow speed branch line service. While on the Amtrak subject, THE MEMPHIS BUFF advises the Panama Ltd. has now lost all first class equipment and has been running without sleeping cars, although this train now carries AMFLEET equipment. Editor's note: Understand from local Amtrak office that sleeping car service will be restored on the Panama.

Have just received a copy of the Eureka Springs Railroad's news letter OAK LEAVES, a dandy publication and containing two very good photos of their Engine No. 3 and two cabs. They estimate that when completed this tourist road will handle over 100,000 riders a year. Progress is being made on its construction and we wish them lots of luck and want them to know we are behind them one hundred percent. Their museum collection now numbers over one hundred unpublished photos as well as other items such as sounders and telegraph keys, old train orders, passes, timetables and the train order board from the old station at Leslie, Ark. The Younger Brothers, Reat and Great are the men responsible for the restoration work which is, as you know, a three and a half mile stretch of the old MoNA.
